June 25, 2026

Notice No. 458

NexVerse IITM, in collaboration with the **Department of Computer Science**, is proud to announce **NexHack 2.0**, a **36-hour National-Level Hackathon** scheduled for **25th–26th September 2026**.

NexHack 2.0 offers an exciting platform for students from across the country to demonstrate their creativity, technical expertise, and problem-solving abilities by developing innovative, AI-driven solutions to real-world challenges. The hackathon is designed to foster innovation, collaboration, and technological excellence while providing participants with opportunities to compete, network, and transform groundbreaking ideas into impactful solutions.

Join us for an inspiring journey of innovation, learning, and creation at **NexHack 2.0**.

Objectives:

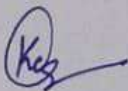

- Foster innovation and creativity through technology-driven solutions.
- Encourage the development of AI-based solutions for real-world challenges.
- Enhance problem-solving, critical thinking, and technical skills.
- Promote teamwork, collaboration, and interdisciplinary learning.
- Provide hands-on experience in product development and innovation.
- Create networking opportunities with peers, mentors, and industry experts.
- Inspire participants to develop impactful and scalable solutions.
